Hello,

I am writing to you from Leukaemia & Lymphoma NI. We are the only charity in Northern Ireland dedicated to blood cancer research.

Our mission is to improve survival rates and quality of life for all blood cancer patients, by supporting clinicians, scientists and students in NI, researching these diseases.

Did you know that September is Blood Cancer Awareness Month (BCAM)? A time to raise awareness and understanding of blood cancers of which, there are over a 100 different types.

This September, we are running a month long campaign to raise the public’s awareness of blood cancers and their symptoms and we would love to have your help.

**HOW TO GET INVOLVED**

There are many ways in which you can help:

- Use the accompanying images (sent via email) on your social media, in ezines and newsletters, and on in-house screens to highlight BCAM and the symptoms of blood cancer.
- Please use any of the following hashtags on your social media - #BCAMLLNI #bloodcancerawarenessmonth and #beatingbloodcancerthroughresearch
- Follow Leukaemia & Lymphoma NI on Facebook, Instagram and Twitter and like and share our posts throughout September.
- Display our A5 information leaflets.
- Display one of our Home Collection Boxes in your home or place of work.
- Sign up for some of our sponsored walks, virtual events, a Big Red Tea Party or host an event of your own.

If you would like any further information, or if you have any questions, please get in touch. We look forward to working with you to raise awareness of blood cancers.

Best wishes,

Richard Buchanan, LLNI Chairman
The symptoms of blood cancer are notoriously vague. Our A5 leaflets detail some of the most common symptoms of blood cancer. We also have leaflets with more information on LLNI. If you are interested in displaying these in your area, please get in touch.

Contact info@llni.co.uk and let us know which leaflets you need, how many you would like of each and where we should post them to.
WHY SUPPORT LEUKAEMIA & LYMPHOMA NI?

Any fundraising you do for us, will support research at the Patrick G Johnston Centre for Cancer Research (PGJCCR) at Queens University Belfast. LLNI scientists are experts in their field and with their research, they aim to understand how the disease develops, better methods of treatment and ultimately improve the outcome and quality of life for all patients affected by leukaemia, lymphoma, myeloma and other related conditions.

HERE TO HELP!

If you’re planning an event, we can help you out with:

- LLNI t-shirts
- LLNI collection tins and buckets
- Large PVC banners
- Pop up stands
- Information cards
- Pens and pin badges
- Balloons and bunting
- Donation envelopes

"We are a small, efficient organisation that takes pride in the local and global impact of our research"
- Prof Ken Mills, Chair of Experimental Haematology, Queens University Belfast

"Almost nine years ago my daughter Catherine was diagnosed with a rare form of leukaemia, she died just one week later. I wanted to do something about this disease, I wanted to ensure other families didn’t lose a loved one like we did.

The key to improving patient outcomes is research, Leukaemia & Lymphoma NI is the only charity in Northern Ireland that funds the science that aims to deal with these cancers once and for all."
- Richard Buchanan - Leukaemia & Lymphoma NI Chairman
